

Quality you can trust

At Enhance Services we go where others don't, by working behind, underneath, in between and on top of all those hard to reach places. This ensures a quality cleaning result that's like no other.

What can we do for you?

We provide a great level of service to meet all your landscaping, cleaning and property maintenance needs.

Our services include:

- Cleaning
- Gardening & Landscaping
- Property management
- Property maintenance

We specialise in integrated services that cover all your property needs including security, concierge services, advanced OHS and more.

Personalised individual customer service

Whether you choose one service or a few, you'll only ever have to deal with a single point of contact. This person will be there to help you with any questions or problems and make sure you are happy with the level of service you receive.

There are no call centres or automated phone systems with us. Just give your nominated supply person a call on their direct line and they will be there to answer your questions.

Extra support services

While we have a core base of services we offer, we also have a network of supporting organisations we can call on to increase our range of services if required.

These include:

- Health and safety surveys
- Risk analysis and security surveys
- Security services, including surveillance, alarms and patrols, investigation and security dogs.
- Service audits

Let's get started! Call us today to have a chat about your cleaning and property maintenance needs.
